

Let's talk about ETV
as a tool for accelerating
innovations for sustainable
industrial processes

WELCOME

Izabela Ratman-Klosinska,
LIFEproETV Coordinator

The webinar is co-hosted by EIT Manufacturing

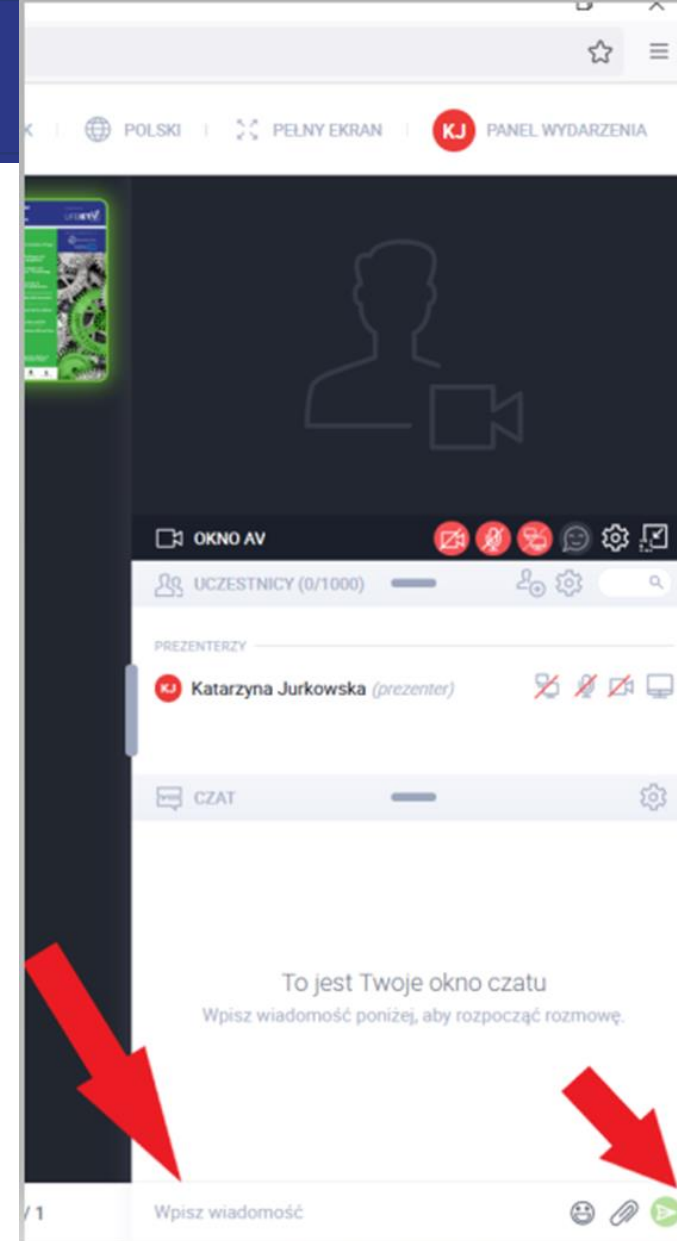

This project is co-financed from EU funds from the LIFE program, from the funds of the National Fund for Environmental Protection and Water Management (Poland) and from the funds of the Ministry of Agriculture (Hungary).

Housekeeping rules for this webinar

1. **The webinar is recorded.** The recording will be available on the LIFEproETV web site.
2. **Microphones of participants will be muted and cameras switched off.**
3. We will run **a live chat session** during the webinar. If you have a question or a comment please just pop them in there. The chat box that is available in the right down corner of the screen you must maximize the screen view. Type your message in the box at the very bottom of the page and click the send button.
4. We will run **2 Q&A sessions** during the meeting to take your questions from the chat:
 - after the first 4 introductory presentations
 - at the end of the meeting.
5. **Unanswered questions** will be addressed after the webinar, the answers will be published on the LIFEproETV we site.
6. We will run a **short survey** at the end of the meeting to collect your feedback on ETV and its link to the policies that will be presented today. Please take part in it , Your voice is important for us. The results will be presented immediately at the end of the meeting.
7. The **presentations will be available on the LIFEproETV web site** upon consent of the speakers.
8. **After the meeting we will share with you our policy briefs for contributions and commenting.**

This project has received funding from the European Union's LIFE Programme under Project Number LIFE19 GIE/PL/000784 and is co-financed by National Fund for Environmental Protection and Water Management, Poland and Ministry of Agriculture, Hungary

Objectives of the webinar

1. Raise awareness about ETV
2. Discuss how and where ETV could add value to:
 - revised Industrial Emission Directive
 - flagship initiatives of the Zero Pollution Action Plan
 - national/regional environment and climate related policies and legislation related to these two EU policies
3. Identify implications for the EU ETV Programme resulting from linking the ETV scheme as a policy support for IED and the Zero Pollution Action Plan

Agenda overview

- 9.00** **Welcome by LIFE ProETV coordinator**
Izabela Ratman-Kłosińska (IETU)
- 9.15** **EIT Manufacturing's endeavours in the green transition of large industries**
Blanca Chocarro (EIT Manufacturing)
- 9.25** **Applying innovations to IED installations: Challenges and opportunities - an IED installation operator perspective**
Piotr Czapryński - PGE Energia Ciepła S.A.
- 9.35** **The challenge of providing innovative technologies and products with applications in IED installations - A technology provider perspective**
Irene Ylla (Itram - Christenys España)
- 9.45** **Environmental Technology Verification as provider of information on green innovations with proven performance**
Izabela Ratman-Kłosińska (IETU)
- 9:55** **Q&A session**

LIFE PRO ETV 

In collaboration with

Co-funded by the
European Union

This project has received funding from the European Union's LIFE Programme under Project Number LIFE19 GIE/PL/000784 and is co-financed by National Fund for Environmental Protection and Water Management, Poland and Ministry of Agriculture, Hungary

Agenda overview

10.00 EU policy framework - IED and its relationship with innovation and ETV

Martin Weiss (European Commission - DG Joint Research Centre)

10.10 Innovation Observatory as a Policy support tool to reduce industrial emissions

Alfredo López (Ricardo Energy and Environment)

10.20 EU policy framework - Zero Pollution Action Plan and ETV

Joachim D'Eugenio (European Commission - DG Environment)

10.30 Q&A session

10.40 Discussion session - Contribution of ETV to achieve IED and Zero Pollution Action Plan Goals

Rovena Preka, PhD (ENEA Italy)

10.50 Wrap-up

Moderated by Marcin Wiśniewski, Ministry of Climate and Environment (Poland) - Industrial Emissions Expert
